

Key Stage 2 Class News Summer 2024

Things to note for your class

Yellow Class

As Summer is starting to show signs of arriving, please send students in wearing cool clothing as our class gets very hot. Please apply suncream to your child before they leave home and send in a named suncream bottle, so we can re-apply it at break times. A named hat and named water bottle would also be good.

This term, the Friday clubs continue with great success. Our learners join with Nancy's sing and sign, or sensory club with Lizzie, both are a lot of fun.

We plan to visit the aquarium and the beach this term as part of our topics, we will let you know dates when arranged.

Topics

Last term's topic 'How do I call the emergency services?' was enjoyed by all and really captured our student's interest.

We were lucky enough to have a visit from two policemen and their riot van who let us get in (and thankfully) out of the cell in the back! We also had a visit from a paramedic and her ambulance which was very exciting.

This half term our topic in KS2 is 'Where does water come from?'. As part of this topic, we have been looking at the water cycle, understanding where water comes from and its importance for us. We have carried out some exciting experiments with water to understand the cycle fully.

In English we have enjoyed reading and exploring 'The snail and the whale' story, with students using lots of props to retell the story themselves. Some students will be writing their own story with new characters that they have created.

We started the topic with a fun water party on the field and we are ending it with a visit to 'The National Marine Aquarium' to see all of the marine life featured in the book. (Apart from the Whale!).

Next half term our topic is 'How do people Travel'.
